A large ship is seen sailing on a vast, choppy sea under a dramatic, cloudy sky. The sun is breaking through the clouds, creating a bright glow. The water is dark blue with whitecaps. The ship is a large vessel, possibly a cruise ship or a cargo ship, with a white hull and a dark superstructure. The sky is filled with dark, heavy clouds, but a bright patch of light is visible where the sun is breaking through. The overall mood is one of hope and resilience.

Our differences, not our similarities,
enable us to learn and grow.

Grow where you are planted

Use imagination! Only those who see the invisible
can accomplish the impossible

A landscape photograph featuring a large, snow-capped mountain range in the background under a blue sky. In the foreground, there is a smaller, dark mountain range. The text is overlaid on the lower part of the image.

Obstacles are the things we see
when we take our eyes off our goals

Career prospects

Economic meltdown, eco disaster, globalization, obesity, and a number of other concerns all offer dramatic confirmation that we need new ideas and new ways of thinking and doing. Perhaps we are entering the age where finally we can move beyond theory and meta-management?

Whatever the scenario that troubles or inspires - you are the best solution. The investment that you make in yourself is the capital that your post MA career will be built upon.

The future is literally yours to make and this is what our students tend to do.
